

Your Personal ID
number
1964562401

Personal details

Title	Mr	Previous name(s)	Nnamdi Michael Okpala
First and middle name(s)	Nnamdi	Preferred first name	Nnamdi
Last name	Okpala	Date of birth	19/09/2001
		Gender	Man

Contact details

Mobile telephone number	+447488229054	Email address	okpalan@protonmail.com
Other telephone number	+447488229054	Postal address	15 Evesham Way Ilford IG5 0EQ

Nominated access

Do you want someone else to be able to act, or speak on your behalf, about your application?
e.g. A parent, teacher, other relative or guardian. If you are using an agent, you can choose to enter their details.

No

Nationality Details

What is your country of birth?	Nigeria	Will you need a student visa to study in the UK?	<i>Not provided</i>
Please tell us your date of first entry to live in the UK	19/05/2001	Have you previously studied on a student or Tier 4 visa in the UK?	<i>Not provided</i>
What is your nationality?	Nigerian	What is your current UK visa or immigration status?	<i>Not provided</i>
Dual nationality	UK national	Start date	<i>Not provided</i>
Do you have settled or pre-settled status in the UK?	<i>Not provided</i>	End date	<i>Not provided</i>

Where you live

Address 1 (Current address)
Dates you lived here: **09/2024 - Present**
15 Evesham Way,
Ilford,
IG5 0EQ
Reason: **Temporary because of my parents/guardians job/study**

Address 2
Dates you lived here: **09/2021 - 09/2022**
51 Malvern Road,
Grays,
Essex,
RM17 5TH
Reason: **Temporary because of my parents/guardians job/study**

Address 3

Dates you lived here: 09/2022 - 09/2024

5 Falcon Avenue,
Grays,
Essex,
RM18 7AX

Reason: Temporary because of my parents/guardians job/study

Home address	15 Evesham Way Ilford IG5 0EQ	Area of permanent residence	Kent
		Residential category	UK Citizen - England

Supporting information

Have you ever lived or worked in the EU (excluding the UK), European Economic Area (EEA) or Switzerland?	Yes	Do you have a parent, step parent, spouse or civil partner who is an EU (excluding the UK), EEA or Swiss national?	Yes
--	-----	--	-----

Finance and funding

What will be your main source of funding for your studies?	UK, ChI, IoM or EU student finance services	Student support arrangements	City of London
--	---	------------------------------	----------------

Diversity and inclusion

Equality monitoring

Ethnic origin	Mixed - White & Black African	What is your sexual orientation?	I prefer not to say
		Do you identify as transgender?	No
What is your religion or belief?	No religion or belief		

Care support information

Have you been in care?	Yes	Parental education	Yes
Duration in care	3 years or more	Occupational background	Principal Software Engineer

More about you

	A long-term illness or health condition which may involve pain or cause fatigue, loss of concentration or breathing difficulties – including any effects from taking associated medication.	Are you a parent or do you have parenting responsibilities for a child aged 17 or under?	Yes
		Do you have official refugee status or limited leave to remain, or are you seeking asylum?	The UK government has granted me refugee status or humanitarian protection in the UK
Further details about your disability	I have Autism, ADHD, Asperger's, and a Learning Disability.	Do you have a parent or carer who currently serves in the UK Armed Forces, or who has done so in the past?	Yes
Would you consider yourself estranged from both your parents (i.e. you are not in contact with and supported by either of your parents)?	No	Have you ever served in the UK Armed Forces?	Yes
		Are you currently receiving free school meals, or were you in receipt of free school meals between the ages of 11 to 18?	Yes
Do you have any unpaid caring responsibilities (not including parenting)?	Yes		

Education

Name of the school, college, or university	ICS London	End date	September 2024
		Attendance type	Full time
Start date	September 2023	Study Mode	Online
Name of the school, college, or university	South Essex College of Further and Higher Educati	End date	September 2022
		Attendance type	Full time
Start date	September 2021	Study Mode	In person
Name of the school, college, or university	Oxford University; Forest Lane , Forest Gate Community School Newham East London; ILFORD; United Kingdom	Start date	September 2015
		End date	September 2016
		Attendance type	Full time
		Study Mode	In person

GCE Advanced Level (A-Level) in Creative Writing

Subject	Grade	Awarding organisation	
Creative Writing	B	Edexcel	
Qualification date	Module(s)		
May 2015	(1 module)		
Modules			
Module title			Grade
Creative Writing Mensa			B
Unique Learner Number (ULN)	Not provided	International English Language Testing System (IELTS) TRF Number	Not provided
Test of English as a Foreign Language (TOEFL) Number	Not provided		

Employment

OBINexus

Role title

Company/organisation address

Founder

15 Evesham Way

Start date

Finish date

November 2024

Not provided

Was/is your position full time or part time?

Full time

Extra activities

Type of activity

Activity provider

Campus visit

UNIQ Summer School

Name of the activity/programme

I was selected for the Oxford University Gifted and Talented Programme in partnership with Mensa.

Start date

End date

10 August 2015

13 September 2016

Personal statement

My journey into computer science began at age 14 when I was selected for Oxford University's Gifted and Talented Programme, where I successfully completed courses in English creative writing and mathematics applications. This early exposure to academic excellence ignited my passion for technology and problem-solving, setting me on a path that has shaped both my personal and professional development.

Despite facing significant challenges throughout my educational journey, including disruptions to my traditional schooling path, I have demonstrated resilience and determination in pursuing my goals. I independently completed my NCFE Level 3 Certificate in Coding Practices, achieving Level 3 qualifications in all five units: Coding Requirements and Planning, Understanding Coding Design, Implementation of Coding, Software Testing, and Understanding Deployment, Maintenance and Configuration Management. This achievement represents not just technical competence, but also my ability to self-direct my learning and persist in the face of adversity.

My entrepreneurial spirit led me to establish OBINexus Computing, where I have developed three breakthroughs in computer science and created a formal definition of consciousness that bridges technology and human experience. Through this venture, I have gained practical experience in business management, technical writing, and product development. I have also published articles on Medium, including pieces on legal frameworks and systemic analysis, demonstrating my ability to think critically about complex societal and technical issues. As someone diagnosed with autism, ADHD, and Asperger's, I bring a unique perspective to problem-solving and system design. My neurodivergent thinking patterns have enabled me to identify patterns and connections that others might miss, particularly in areas of system architecture and algorithmic design. I have learned to leverage these differences as strengths, developing innovative approaches to both technical and business challenges. Now, I'm ready to shift my focus to mechanical and electrical engineering. I've studied electrical engineering independently and have developed a strong foundation in circuitry, safety-critical systems, and machine components. My intention is to formally specialize in robotics, particularly in the application of AI to social care and high-risk environments where human safety is paramount. Robotics today is being done wrong - I want to fix that. This isn't just about building machines. It's about changing the way we design systems - from a human-first, ethically grounded, technically excellent perspective. The work I'm doing at OBINexus, including the development of OBIAI (Ontological Bayesian Infrastructure for Artificial Intelligence), demonstrates my commitment to safe, conscious, and impactful robotics. OBIAI represents a new frontier in AI: systems that truly understand context, risk, and purpose - not just data. I'm seeking to formalize my technical education through a program that combines theory and rigorous hands-on application in mechanical and electrical systems. My goal is to leverage my entrepreneurial mindset not just to run a business, but to change how we build and interact with intelligent machines. I believe education isn't a destination - it's the launchpad for action. That's why I'm applying. I'm not here to study engineering just to follow instructions - I'm here to reinvent how machines understand the world. With a computer science degree under my belt, three AI breakthroughs behind me, and a startup already in motion, I'm now turning to mechanical and electrical engineering to finish the equation: brain + body = robotics done right. From building OBIAI - the first mathematically conscious AI - to sketching systems for safe autonomous care, I'm driven by one mission: to build technology that thinks deeply and serves responsibly.
